(14-11 Yrs)

EMOTION IN ACTION

RULES AND GUIDELINES

Are you ready to capture the essence of emotions in a single photograph? Participate in our competition and showcase your ability to freeze a moment of genuine emotion in a real-life situation.

Here's what you need to know:

1. Participants are tasked with capturing and submitting a single photograph that portrays a powerful and authentic emotion. Whether it's joy, sadness, surprise, or any other emotion, your photograph should evoke a strong emotional response from viewers.
2. The key is to capture a moment of action or movement that effectively conveys the chosen emotion. Seek out real-life situations where emotions are raw and genuine, and use your photography skills to freeze that fleeting moment.
3. To maintain the integrity of the competition, submitted images must be original and unaltered. Basic adjustments such as brightness, contrast, and cropping are allowed, but major editing or manipulation is not permitted.
4. Along with your photograph, provide a brief description or caption that explains the emotion and context behind the captured moment. Help the viewers understand the story and the depth of the emotion they are witnessing.

Join us in Emotion in Action, and let your photograph speak volumes. Capture the emotion that moves hearts, tells stories, and leaves a lasting impact. Good luck, and may your photograph touch the souls of all who view it!
